What are the Safe Travels Protocols?

- WTTC has produced new global Safe Travels protocols for use by the Travel & Tourism sector as best practice guidelines to help restart and speed up the recovery of the sector in the wake of COVID-19.

- The global protocols are designed to help to rebuild confidence among travellers, and within the sector, so safe travel can resume once restrictions are eased. They provide consistency to destination authorities as well as guidance to travel providers, operators, & travellers, about the new approach to health & hygiene in the post COVID-19 world.

- The global protocols were developed in collaboration with WTTC Members, leading industry associations & international organisations. They take into account the current guidelines of the World Health Organization (WHO) and the Centers for Disease Control and Prevention (CDC).

- The protocols are living documents which will be updated as new information becomes available about COVID-19. WTTC recommends the private sector and destination authorities alike, to adopt a risk-based approach based on high & low risk contexts and adapt their measures accordingly. A one-size fits all is not the solution.

- The Safe Travels protocols for each key industry within the Travel & Tourism sector will help to provide alignment and consistency to ensure the safety of travellers & workforces as the sector recovers from COVID-19. The industry protocols are being launched in phases. Presently, nine industry protocols are available, notably for hospitality, outdoor retail, aviation, airports, tour operators, short-term rental industry, attractions, car rental, and convention centres, meetings & events. Protocols for the insurance and cruise are under development.

- WTTC is calling upon national, regional, and local destination authorities to back the adoption of Safe Travels protocols so that they can be implemented globally and restore much-needed confidence in travellers to restart the Travel & Tourism sector.

What is the Safe Travels Stamp?

- The Safe Travels stamp is the world’s first ever global safety and hygiene stamp for Travel & Tourism, designed specifically to address COVID-19 and similar outbreaks.

- The stamp will allow travellers and other Travel & Tourism stakeholders to recognise destination authorities and companies around the world that have implemented health and hygiene protocols that are aligned with WTTC’s Safe Travels Protocols.

- All countries, destination authorities and companies operating in Travel & Tourism will be able to use the stamp, provided they comply with the Safe Travels protocols, in the case of aviation, with the International Civil Aviation Organization’s “Takeoff: Guidance for Air Travel through the COVID-19 Public Health Crisis” and have signed the Terms & Conditions.

- For aviation, the WTTC Safe Travels stamp will recognise and could be used by countries and destinations that adopt the Safe Travels protocols and the ICAO Takeoff guidelines for aviation.

- The stamp is free to use.

- The Safe Travels stamp is based on self-assessment and it is not a certification. Countries, destination authorities and companies using the stamp have confirmed that they have implemented, and will ensure ongoing compliance with, the Safe Travels protocols and ICAO ‘Takeoff’ guidelines.
